PROFILE

As an electrical engineer, I am dedicated to leveraging my expertise in electrical systems and innovative technologies to drive impactful solutions in a rapidly evolving industry. With a passion for problem-solving and a commitment to excellence, I thrive in challenging environments where I can apply my technical knowledge to design, develop, and optimize electrical systems.

EDUCATION

- St.Francis Xaviers High School
  2019
  9.5
- TS Model School and College
  2019–2021
  94%
- Mallareddy College of Engineering and Technology
  2021–2025
  9.15 [2–2]

SKILLS

- Circuit Design and Analysis
- Programming and Software Proficiency
- Computational Knowledge on AUTOCAD and MATLAB
- Basic knowledge on C Python , Java and DBMS
- Played a leadership role in Minor and Major projects
- Problem Solving and Time Management

ACHIVEMENTS

- Codetantra Certificate on Python
- Coursera Cretificates on
  Data Analytics from Google
  Digital Marketing from Google
  Artificial Intelligence from IBM

PROFESSIONAL EXPERIENCE

1.Application Development – I

"Transmission line fault protection system"
To protect the equipment's such as loads from line to line and line to ground faults.

2.Application Development – II

Overvoltage and undervoltage protection of load
By this project we can able to protect the loads from over and under voltage fluctuations.
